

FAQS:

"What if I've already done some of these things?"

Terrific! Any previous projects can help you complete a level.

"Will there be any training classes?"

SALS has scheduled [classes](#) to help you learn more about these technologies. You can also learn on your own or at a DIY (Do-It-Yourself) day at SALS.

"What is the purpose of the Library 2.0 Celebration?"

To give everyone a chance to share outcomes for this year's LSTA Library 2.0 grant. Show us the work you have done and share any "pearls" of wisdom that you gathered along the way.

"What if I can't come to the Library 2.0 Celebration?"

We encourage everyone to try to join us; however, we understand that there are circumstances beyond our control. Please contact Jennifer to discuss this further.

"Do I have to make my work public?"

No. This challenge can help you gain experience with the technology. You can evaluate the tools and make decisions on whether or not they will work in your library.
